

# QHSE policy statement

## We commit to

As a leading global supplier of intelligent foundation and installation equipment IQIP sets a leading example in the area of Quality, Health, Safety and the Environment (QHSE). Our Integrated Management System support IQIP's ambition to enable others in being successful in their performance driven and boundary extending environment. Our projects are executed with excellence thorough [accountable leadership](#) and by adhering to our organizational values (professionalism, proactive, ownership and ambition). Employees commencing work in behalf of IQIP shall comply with this policy and pursuit with us an outstanding performance. We [demonstrate](#) visible and active leadership that [engages employees](#) and manage QHSE performance as a line responsibility with clear authorities and accountabilities.

## Health and Safety

Our employees are our most valuable assets, making safety, health and wellbeing to be one of our greatest responsibilities. We strive towards preventing all incidents and we aim to achieve a [zero injury performance](#). It is our priority to conduct activities in a manner that first and foremost protects the safety and wellbeing of colleagues. Working safely is a condition of employment and we all bear responsibility for our own safety and shall [commit](#) to protecting the safety of those around us. We continuously increase [risk awareness](#), employee commitment and stimulate behaviors and attitudes that support our [safety culture](#). We aim for the best and prepare for the worst. Everyone who works on behalf of IQIP is authorized to [stop the job](#) when they deem the situation to be unsafe or when safety, health, environment or quality is compromised, all under the security of non- retaliation.

## Environment

We believe that innovating and developing [sustainable solutions](#) is critical to our success and therefore we are committed to conserving environmental resources and [minimizing our impact](#) to the environment throughout the life cycle of our equipment. We closely govern environmental aspects and risks in operations and we are utmost dedicated to [prevent spills](#) or any other type of pollution. As a global organization we always consider the context in which we operate and we ensure to [comply](#) with applicable regulatory requirements or industry standards.

## Quality

We develop, maintain and [continuously improve](#) all aspects of our business and our integrated management system to sustain growth and to ensure that we meet market requirements. We make sure that we are [in control](#) as we believe that quality is intractably linked to operational efficiency and [customer satisfaction](#). We ensure that our products and services comply with- or exceed client expectations and we deliver [first time right](#).
